### FRESHNESS OF FOOD.

Simple Scotch and English Methods for Preservation Explained.

Consul Maxwell Blake, writing from Dunfermline, says of the simple methods used in Great Britain to keep fruit and eggs fresh:

"A correspondent in Stirlingshire writes me that he has recently conducted some successful experiments in reference to the packing of fruit for transit without the aid of refrigeration, his method being simply to pluck the fruit at height of sun, to avoid all adhering dampness, and immediately pack in prepared cases containing granulated sugar. Care must be taken that the sugar utilized for the purpose is also quite devoid of moisture, and the cases should be so constructed as to be as nearly as possible impervious to atmospheric vapors. Both the sugar and the cases, as may be inferred, should be designed for and admit of constant reuse.

"The great fluctuation in the price of fresh eggs in Great Britain, ranging from 15 cents a dozen in summer to from 60 to 75 cents a dozen in winter—and produced with difficulty even then—gives popularity to the economical practice of artificially preserving them during the cheap season, the most successful method employed by the householder being as follows:

"Mix together in an earthenware POTATOES—First grade 75 cents, second grade 50 cents. John March, route 5, above Mummasburg.

## NEW ELECTRIC LIGHT SCHEME

Another Plan being Advanced for Lighting Towns of the Upper End of the County with Electricity. Plant at Aspers.

An electric light plant located at Aspers Station and supplying the towns of Bendersville, Biglerville, York Springs and Aspers is the latest move on foot in the progressive upper end. The matter is being pushed by local representatives of New York capitalists though no effort is being made to sell stock.

The plant is promised as a sure thing if the boroughs mentioned will accept the proposition of the New Yorkers to light their towns as those back of the business feel sure that there will be a sufficient number of private consumers to make the operation a success. It is their plan to light Arendtsville later on if that town wants the service.

In addition to lighting the towns, the private homes and business places in the towns the company also proposes to light all houses between the towns where their lines run if the people so desire. This would put electric lights in a large number of farm houses of the upper end and would be a great convenience to the residents of that section.

The plant would be located two hundred yards from Aspers station and would be right along the railroad. Water from 'Possum Creek about the same distance away, would be run into the plant for use there. The motive power would be steam.

Those interested in the onward march of progress which has been so apparent in the upper end of the county the past few years are taking a great deal of interest in this new plan. It will be remembered that a plan somewhat similar was talked of in Biglerville, Arendtsville and Bendersville some months ago.

## STARNERS

Starners, Aug. 11—The huckleberry crop is now becoming scarce. There were many hundreds of quarts picked. Samuel Humes, of Idaville, met a crowd of picknickers back of Georgetown School House and bought their berries. The corner stone for the new church at Mount Zion was laid on Sunday. There was a large attendance at the service.

Mrs. Priscilla Starners has started the manufacture of a good home made salve which is proving very beneficial to all who use it.

Mrs. Priscilla Starners, Mrs. Daisy Weidner and two children, Ernest and Laura, were visitors at the home of Charles Starners on Monday.

Wells are getting low and crops suffering from the long continued drought.

Clarence Starners is getting his cider mill ready for cider making.

A big picnic will be held at Good-year on Saturday evening in celebration of the building of the new church.

John Hinkle has started to haul milk to the creamery at Gardners Station.

Emory Rinehart and friend are spending some time with friends here. Mr. Rinehart is in the employ of the Pennsylvania Railroad.

Scott Slusser is building an end to his barn.

Mr. and Mrs. Oscar Hinkle will start up housekeeping in Mr. Scott Slusser's house next week.

Mr. Reuben Wolford lost a 150 pound hog through the animal getting fast in the floor of the pen and breaking its leg.

Harry Starners and John Kline went to market on Tuesday evening.

Charles Pfeiffer is still on the sick list.

Mrs. Martha McKinney has sold her home to George Toner for \$400.

## THOUSANDS OF DOLLARS LOST

This Year's Drought Has Caused Many Farmers to Lose Great Amounts. Corn Crop More Important than Wheat Yield.

Many thousands of dollars have already been lost for the people of Adams County and many more thousands will be added to this sum if the drought does not come to an end within the next few days. One man owning a large farm near Hunterstown in discussing the situation with a Times representative said:

"With good weather conditions I would have had a corn crop yielding 13000 bushels and after keeping enough for feed should have realized \$2500 clear. Now I find that I will have to buy feed. The corn crop is the big one of the county and any practical farmer will tell you that a two thirds corn crop is far more profitable than a full wheat yield. People have been talking about Adams County's fine wheat harvest this year but there are few farmers who would not rather see a big corn yield."

A Cumberland township farmer was standing nearby while this conversation was going on and remarked:

"Yes indeed, the corn crop is what we want most. I had counted on 3500 bushels this year. If we don't have the drought broken within a day or two I will be lucky to get 500."

The potato crop will be a failure to a very great extent also for they have been drying up rapidly during the past few weeks and the "tubers" will be small. A large acreage of this vegetable was put out in the Spring and the loss from this source will also be great.

Dairymen are confronting a rather serious proposition also for their pasture land is being gradually dried up and very little good grass remains in the fields used for this purpose.

## MUCH PRAISE FOR "EDDIE" PLANK

Adams County Boy Distinguishes Himself in Presence of Twenty Thousand People, City Papers Loud in their Praise of Him.

Base ball fans in Gettysburg and all over the county are happy today over the great accomplishment of "Eddie" Plank, the Adams County boy who has made the name of Gettysburg famous in base ball circles. On Tuesday he pitched the game for the Athletics which landed them in first place in the American league pennant race. Not only did he pitch the game and win it by his masterful work but also batted out a home run. The Philadelphia papers are jubilant over the victory and enthusiastic about Plank, the following being a few of the many happy words of praise heaped upon him.

### THE PHILADELPHIA PRESS

"Edward Plank caused staid men to ruthlessly destroy their headgear and pound vigorously on the anatomy of their next-door neighbor. It was a sight which will never fade from the memories of 19,080 to see that sphere go bounding gracefully over the head of Killifer, the Detroit center fielder, while Eddie ran around the paths and finally crossed the plate with a home run to his credit. Even the women and girls—and there were hundreds of them—forgot propriety and screamed and danced about as if crazed."

"While Mack's veteran southpaw Plank was credited with the most spectacular stunt of the historical day in hitting the home run, his name will go down in the archives of the Athletics not so much for that feat as for the steadiness which he displayed in critical periods. Thrice were three Tigers on the paths pleading for succor. And in each instance Plank settled down and retired the side amidst the plaudits of the multitude."

### THE NORTH AMERICAN

"If any man ever survived the situations the red-blooded Plank had to face yesterday afternoon he must have been one of the ancient stoics. In three of the four concluding innings, the big, Gettysburg port-side gave the most remarkable exhibition of recuperative pitching, when within a hair's breadth of disaster, that he has done since the year Connie brought him out of obscurity."

"Four times in this period, Detroit filled the bases yet only one run was produced. Three times the big Plank, with his blinding cross-fire, stopped the rally of his opponents and sent them to the field unhanded."

### PHILADELPHIA INQUIRER

"When it came down to the crucial moments, when only the most skillful kind of strategic pitching would avert disaster, Plank showed up superbly and pulled himself out."

"When the reliable Eddie Plank seemed to have dug a pit for his teammates and himself out of which all the luck in the world could not pull them, the enemy found his benders impossible to connect with."

### CALLERS

## ANOTHER GOOD RACING MATINEE

One of Best Races Ever Seen on Local Track Delights Crowd at West End Driving Park. Greased Pig Chase a Feature.

The racing matinee of the Gettysburg Driving Club held on Tuesday afternoon was a marked success in every particular except that of attendance. The crowd was much smaller than usual while many of those who did attend stayed on the outside of the fence and avoided paying admission.

All of the races were good, that of Class B being one of the best ever seen on the local track. Every heat was close and each horse got one. Ashland Joe, driven by David Kelly, of the Buttonood Stock Farm and owned by Joseph Ocker of this place finally won out.

The Class C race was won in two straight heats by Robert S. Bream's Loubrian which was well driven by Grover Bream. The road race was won by Dockma owned by George H. Wolf, of Taneytown. The horse was driven by Mr. Wolf's son who also drove an exceptionally good race in Class B. It was the young man's first attempt and he made good. The running race aroused the usual interest. The greased pig chase excited considerable amusement, the slippery porker followed by twelve boys presenting a merry sight. It was finally caught by Harry Palm.

The summary of the races follows.

## IRON SPRINGS

Mr. and Mrs. Ambrose Sanders visited Mr. and Mrs. Charles McIntire at Fountain Dale on last Sunday.

Frank Felix moved his saw mill from the John Baker timberland tract along the Cold Spring road to near Greenmount on last Saturday.

Mrs. Fleet Bierly from Sabillasville, Md., visited her parents, Mr. and Mrs. John Baker, over last Saturday and Sunday.

Messrs. John Baker and W. F. Watson made a business trip to Gettysburg on last Monday.

Mrs. William Heagy and two daughters, Lovie and Nellie, visited her parents, Mr. and Mrs. Frank Strausbaugh at Orrtanna on Saturday and Sunday.

### LIVELY EXPERIENCE

Iron Springs, Aug. 11—D. R. McClellan, Ephraim Reese and John Steffy had quite an adventure on Saturday while viewing some timberland at the head of Tom's Creek. They came in contact with a copperhead snake, killed him, then a short distance away they killed a rattlesnake having 12 rattles and a button, measuring 3 1-2 feet in length. The sequel to the adventure is that only a short distance from the place they found a bee in a tree and secured twenty pounds of honey.

### MANY SNAKES

Starners, Aug. 11—Snakes are unusually plentiful in the vicinity of Starners this year. Daniel Murtorf, George Murtorf and Jacob Paxton each killed a large rattlesnake. While Charles Miller was penning up some chickens a large copperhead snake struck at him but Mr. Miller succeeded in dispatching it. While Mrs. Mary Starners was picking huckleberries she saw two big blacksnakes the one of which was eating a young bird out of a nest on a bush.

### UGLY ACCIDENT

James, son Mr. and Mrs. Charles Starners, of Starners, met with an ugly accident in which he split his big toe causing a wound which bled so much that for time it was feared he would lose his life. He was trying to split a pine knot with an axe. The instrument slipped and cut the toe back to the foot. Solomon Starners, the grandfather of the boy, stopped the flow of blood and he is getting along right well at present.

**CASTRO'S RICHES MELTING AWAY**  
**Enemies Despoiling Venezuelan ex-President of Millions.**  
**USE HIGH HANDED METHODS**  
Cigarette Company Sold Out and Re-organized to Freeze Castro Out—Securities Worth \$1,000,000 Reduced to \$50,000—Given Some of His Own Medicine.

Caracas, Aug. 11.—The systematic spoliation of the fortune which former President Castro left behind him in Venezuela has proceeded with such gigantic strides that, after the first six months, the \$5,000,000 of known assets have been almost totally wiped out.  
The method by which \$1,000,000 of Castro's property was reduced to \$50,000, and this paltry remainder then taken away from him, will probably be a revelation even to Castro himself, who is now having a taste of the same medicine which he administered to the Venezuelan people for so many years.  
Castro owned \$1,000,000 worth of cigarette shares, which had been given to him as his share in the promotion of the cigarette trust. A few weeks ago the directors of the cigarette company sold the \$5,000,000 concern to a private individual, Senor Garcia Guerra, for \$250,000, or just 5 per cent of its capitalized value, and notwithstanding that on the same day of the sale the shares were quoted on the exchange at 25 per cent premium.  
Castro Frozen Out.  
The next step was the formation of a new company, which took in all the old stockholders except Castro. Then there was issued an order by the criminal court to have the \$50,000, which corresponded to the 5 per cent purchase price of the Castro stock, deposited in the bank of Venezuela to the order of whoever might be the holder of this block of stock. So in one day one million dollars of good money became fifty thousand.  
But the worst was yet to come. This \$50,000 awakened the cupidity of more than one lawyer, so it was immediately attached by individuals who have lawsuits pending against Castro for the recovery of properties and damages.  
The sequel to this story of "high finance" was the sudden arrival a few days ago of a German named Theodore Hauer with the million dollars of cigarette shares in his pocket, which he claims belong to him by virtue of purchase from General Castro. He has engaged counsel and will begin action against the perpetrators of the alleged illegal reorganization.  
What has been done with Castro's cigarette stock is an exact repetition of the process used to oust him from the company which controls the Orinoco river and by which his large block of stock was made worthless.

**LAND ELEPHANT SHARK**  
Long Branch Crew Catches 1000 Pound Sea Monster.  
Long Branch, N. J., Aug. 11.—An elephant shark, said to be the first ever caught along the Jersey coast, was captured at sea by Cook & Smith's crew and landed on the beach at Galilee after a sharp fight.  
The fighting monster did not take kindly to the prongs in the hands of the fishermen and the men finally had to kill the big fish before they could land him in the sea skiff. The shark weighed fully 1000 pounds and was about twelve feet long.  
**TWO NUNS LEAP TO DEATH**  
Trapped on Railroad Trestle By Train, They Jump Into Rapids.  
Montreal, Que., Aug. 11.—Two nuns, walking from Montreal convent to pay a visit to Park Laval, were overtaken by a train on a bridge a short distance from the city.  
Terror-stricken, they leaped to the rapids, forty feet below, and were drowned.  
**Fire Damages Trenton Bridge.**  
Trenton, N. J., Aug. 11.—One of the spans of the lower Delaware river bridge, between this city and Morrisville, was destroyed by fire. The bridge was formerly used by the Pennsylvania railroad for its trains, but since the building of the new stone bridge a few years ago the old bridge has been used for wagon traffic and foot passengers. The iron work of the burned span remains, and the bridge will probably be rebuilt.

**TOWN TERRORIZED BY ELEPHANTS**  
**Dog Bit Beast and Caused Eleven to Stampede.**  
Clay Centre, Kan., Aug. 11. — For two hours the people of this town were terrorized by eleven elephants which escaped from a show and stampeded through the streets.  
The trouble started when a small dog bit the leg of one of the elephants. The beast at once began to trumpet and, breaking from its keeper, ran away. Ten other elephants followed. Before the animals were finally captured a showman was seriously hurt.

**HANGED HERSELF IN JAIL**  
Woman Charged With Highway Robbery Commits Suicide.  
Passaic, N. J., Aug. 11.—Mrs. Annie Zargosky, a Polish woman, charged with highway robbery, committed suicide in the jail at Garfield, N. J., by hanging. Friends believe that she was innocent of the charge against her, but that terror, inspired by her imprisonment, drove her to suicide.  
Mrs. Zargosky was arrested on the complaint of a real estate man, who told the police that she and a woman companion had rushed upon him while he was on his way home and had robbed him of nearly \$200 in cash.

**Found Man's Leg on Engine Pilot.**  
Chicago, Aug. 11.—The gruesome discovery of the leg of a man on the pilot of a Baltimore & Ohio railroad engine led to the finding of the mangled bodies of two men, James E. O'Connor and Dennis Crowley. The men lived together, and were presumably on their way home when they were struck by the engine.

**Dead Man's Clothes and Jewelry Stolen.**  
Great Barrington, Mass., Aug. 11.—One of the meanest men on earth turned up here after the drowning of David Faye Whitcomb at Brookside pond. He took all the dead man's clothing, except the trousers, and also \$250 worth of jewelry and escaped.

**STEEL TRADE BOOMING**  
Maryland Steel Company Running Full Time in All Departments.  
Baltimore, Aug. 11.—For the first time in nearly two years all departments of the Maryland Steel company are running full time, six days a week. Orders for rails have been coming in at a satisfactory rate for several weeks, and now the tonnage on the company's books is the largest since 1907, with promise of steady expansion following the re-entrance of the railroads in the market for supplies.

**Develops Rabies From Old Dog Bite.**  
Johnstown, Pa., Aug. 11.—Growing and snapping like a dog, William Flickinger, a young man of Boswell, Somerset county, twenty-one years of age, is strapped to a board at the home of his parents, suffering from an attack of hydrophobia which developed suddenly. Flickinger was bitten on the right hand by a dog four or five years ago. It is said he paid no attention to his injury. He will be sent to Pittsburgh for treatment at the Dastur institute.

**Rich Man Accused of Fraud**  
Philadelphia Pork Packer Charged With False Pretenses.  
Philadelphia, Aug. 11. — Charged with having obtained \$34,000 from the Quaker City National bank, under false pretenses, George J. Roesch, secretary and treasurer of Charles Roesch & Sons company, one of the largest pork packing establishments in this city, was held under \$5000 bail for court.  
William D. Brelsford, cashier of the Quaker City National bank, from whom Roesch obtained the loans, made the affidavit containing the charge. He said that Roesch obtained the loans by representing to a mercantile agency, at the first of the year, that he owed to banks and individuals, \$220,000, whereas he owed about \$340,000.  
Roesch is director of several banks and president of the Consolidated Dressed Beef company, of this city.

**GAVE HIS LIFE FOR HAT**  
Twelve-Year-Old Boy Jumps Into Creek After Lost Headgear.  
Chester, Pa., Aug. 11.—When his new hat, which his mother had just bought for him to wear on a Sunday school picnic, blew off, twelve-year-old Samuel Hucker, while walking on the Pennsylvania railroad bridge that crosses Chester creek at Sixth street, although unable to swim a stroke, sprang into the water and made a grab for the hat. When the body was brought to the surface the boy grasped the hat tightly in his clenched fists.

**SEEK "HIGHER UP" BROKERS IN THEFT**  
**Sale of Securities Reveals Tale of Tangled Finances.**  
New York, Aug. 11. — Donald L. Persch, an ambitious young financier, whose offices constituted merely desk room in a downtown note broker's office, is in the Tombs, in default of \$50,000 bail, and thereby hangs a tale of tangled finance through which somebody in Wall street nipped F. Augustus Heinze, the one time copper king, for \$40,000.  
Persch is specifically charged with the larceny of \$40,000, a profit obtained by the sale of 15,600 shares of Ohio Copper common and 4600 shares of Davis-Daly Copper common, which an agent for Heinze placed with the Windsor Trust company, of this city, as security for a loan of \$50,000. In some manner as yet unexplained the stock was not held by the bank, but was turned over to a clerk acting for Persch, and at the latter's orders was thrown on the curb market and sold for approximately \$90,000. How Persch obtained the capital to carry through the deal and why the stock was relinquished by the trust company are points yet to be cleared up.  
After his arrest Persch intimated that there were men "higher up" in the transaction, but he refused to say more, upon the advice of counsel.

**COL. ALBERT A. POPE DEAD**  
Pioneer Bicycle Manufacturer Passes Away at Summer Home.  
Boston, Aug. 11.—Colonel Albert A. Pope, the pioneer bicycle manufacturer of the United States and well known as one of the first advocates of the existing good roads system, died at his summer home in Cohasset. Colonel Pope had been in ill-health for months, due to the breakdown of his nervous system, which followed the financial embarrassment of his bicycle company, the largest concern of the kind in the country, which had its headquarters in Hartford, Conn.

**C. P. TAFT BUYS A REMBRANDT**  
\$500,000 Is Said to Be the Price of Painting Acquired in Paris.  
Cincinnati, Aug. 11.—Charles P. Taft, brother of the president, has acquired a Rembrandt painting, for which, it is said, he paid \$500,000. The painting has been in the possession of the Pourtales family in Paris, France, for more than a hundred years.  
"The Young Man Rising From a Chair" is the title of this latest addition to Mr. Taft's gallery of art treasures.

## CURED IN ONE MONTH BY CUTICURA REMEDIES

"I am seventy-seven years old and one day, some years ago, I fell from a step-ladder, bruising my head. In a few days I could not walk. I called in a doctor and inside of a week erysipelas set in. The doctor said I had not cured me of that when I was taken with eczema from head to foot. I was sick for six months and what I suffered tongue could not tell. I could not sleep day or night because of that dreadful itching; when I did sleep it was from sheer exhaustion. I was one mass of irritation; it was even in my scalp. The doctor's medicine seemed to make me worse and I was almost out of my mind. I read of Cuticura and sent my wife to the drugstore, who was a member of the lodge of Odd Fellows, for a set of the Cuticura Soap, Cuticura Ointment and Cuticura Resolvent. I used them persistently for twenty-four hours. That night I slept like an infant, the first solid night's sleep I had had for six months. I was not afraid to use plenty of Cuticura Ointment and Cuticura Soap with hot water and in a week's time I was able to put on my clothes again. In a month I was cured. From that day to this I cannot praise the Cuticura Remedies too highly. I may add that I have a very heavy head of hair which I owe to Cuticura. W. Harrison Smith, R.F.D. 2, Mt. Kisco, N. Y., Feb. 3, '08."

A single set of the Cuticura Remedies is often sufficient for the treatment of the most torturing, disfiguring, itching, burning and scaly humors, eczemas, rashes and irritations, with loss of hair from infancy to age, when all other remedies fail. Guaranteed absolutely pure and may be used from the hour of birth. Cuticura Soap (25c.), Ointment (50c.), Resolvent (50c.), and Cuticura Cream (25c.) are sold throughout the world. Puter Drug & Chem. Corp., Sole Importers, 137 Columbus Ave., Boston.

## SUTTON'S SISTER TELLS HER STORY

Mrs. Parker Tells of Interview With Lieutenant Adams.

## WAS A WILLING WITNESS

Says Adams Told Her of the Incidents of the Fight, and Said He Would Not Swear Sutton Was a Suicide. Also Said Feared Sutton Would Kill Him.

Annapolis, Md., Aug. 11.—Mrs. Rose Sutton Parker, whose testimony has been looked forward to as of surpassing interest in the investigation of the death on October 13, 1907, of her brother, Lieutenant James N. Sutton, Jr., U. S. M. C., was the centre of attraction at the sessions of the court of inquiry. She took the stand smilingly, was a willing witness, and demonstrated clearly that her memory of her interview with Lieutenant Adams shortly after her brother's death was much better than was the recollection on the same points of Lieutenant Adams. His testimony as to what was said during this six-hour interview was very largely "I do not remember" in character.

Mrs. Parker was eminently positive in her statements as to what was said and done. It was notable from her testimony that whether or not Adams and Sutton were friends, Adams and Mrs. Parker parted most amicably after a little dinner party lasting a couple of hours and ending about midnight at a local restaurant at which Adams was one of Mrs. Parker's guests. It was remarked, too, that Mr. Birney, counsel to Lieutenant Ad-

MRS. HUGH L. PARKER.

ams, did not press Mrs. Parker to any extent on cross-examination. Indeed, it may be said, that this feature was a distinct disappointment, and Mrs. Parker expressed herself afterward as having been one of the most keenly disappointed.

## Asked Him to Tell Her All.

Mrs. Parker told of interviews in her room at Carvel Hall with several of the young lieutenants. She asked Lieutenant Adams to tell her everything about her brother's death and not spare her feelings, and that Adams told her of Lieutenant Sutton's unpopularity with his brother officers.

Mrs. Parker declared that Lieutenant Adams had told her of the incidents of the fight that followed the automobile ride and the "dump." She said Lieutenant Adams told her that her brother went for weapons, having declared he would kill Adams, Utley and Osterman, and that he described the final encounter, and that Adams told her he could not swear her brother committed suicide. He said he knew if Sutton had lived his own life would have been in danger, "that Sutton would 'get' me."

Adams, she said, stated that Lieutenant Utley hated Sutton, and had declared some one ought to "take it out of him." After the interviews, Adams, she said, accepted her invitation to dinner, which was taken with two other men at a restaurant. Mrs. Parker paid for the dinner. Adams had told her that every one in Annapolis believed he had killed Sutton. She disclaimed to him such belief.

Mrs. Parker told Adams, she said, that all she wanted was to prove her brother was not a suicide. She told Adams if she could do this the case would be dropped.

## Heavily Fined For Hugging Girls.

Pittsburg, Aug. 11.—Steven Bosovitch, of Braddock, was arrested for hugging girls and was fined \$25 by Burgess John Brennan, of Braddock. Bosovitch was walking along Halket avenue when he met two strange girls who appealed to his fancy. One of the girls had several packages in her arms, and when Bosovitch administered the love token the packages were scattered in every direction. The girls screamed and a policeman arrested the man.

## Killed in Fight Over Beer.

Washington, Pa., Aug. 11.—A fight over the first glass of beer to be drawn from a keg at a party being held by foreigners resulted in one man being shot and instantly killed and two fatally wounded. Several arrests have been made.

## MAY PUT THAW ON PROBATION

Justice Mills Expected to Give Slayor Liberty For a Certain Period. White Plains, N. Y., Aug. 11.—That Justice Mills will grant Harry K. Thaw a probationary period of liberty is the opinion of all here who have closely followed the case.

It is expected that his decision tomorrow will be to the effect that Thaw may go free for a certain period, provided he will agree to accept an attendant who shall be designated under the direction of the court, and who shall report at frequent intervals as to his charge's conduct and general condition.

At the expiration of a reasonable period, if the court shall be satisfied that Thaw is normal, all espionage will be removed from him and he will be dismissed from the jurisdiction of the courts forever, so far as the Stanford White case is concerned.

## CLERK KILLS ENGINEER

Claims Mine Employee Was Too Attentive to His Wife.

Wilkes-Barre, Aug. 11.—Arming himself with a revolver, Michael Babb, a department store employee, of this city, went to a coal mine at Edwardsville, Pa., near here, and shot and instantly killed Philip Richards, a stationary engineer. Two shots were fired and Babb immediately surrendered to the police.

It is said that Babb was jealous of the attentions Richards paid to the former's wife. Richards leaves a widow and was thirty-eight years old.

## JERSEY MURDERER DIES IN CHAIR

Adolph Bertschey Goes to Death Without Tremor.

Trenton, N. J., Aug. 11.—Adolph Bertschey, the thirteenth man to go to the electric chair in New Jersey, was electrocuted at the state prison for the murder of Frank Janowski at Lakewood last December. Bertschey went to the chair without a tremor and in fact declined any assistance in going from the death chamber.

His wife made arrangements to have the body sent to Brooklyn for interment. The woman will receive \$1000 from a life insurance policy which he took out three years ago. Bertschey admitted the killing of Janowski. Bertschey had robbed a hotel at Lakewood, and while escaping was followed by Janowski in an effort to try and capture him. Bertschey fired upon his pursuer, killing him instantly.

## JANE ADDAMS WON'T RUN

Calls Her Presidential Boom a Joke From Boston.

Chicago, Aug. 11.—Miss Jane Addams, of Hull House, commenting on a Boston suggestion that she be boomed as a candidate for the presidency of the United States on an Equal Suffrage ticket, declared the idea absurd.

"I can't imagine who is responsible for this, but I can say it is all a joke," she said. "If the women of Boston who are interested in the suffrage movement started this they are jesters. It is altogether too absurd for me to discuss it."

## ZEPPELIN ALL RIGHT

Count In Good Spirits After Minor Operation.

Stuttgart, Aug. 11.—Count Zeppelin, who underwent a minor operation on the neck, is well and in good spirits.

According to dispatches received Tuesday, Emperor William had been informed that Count Zeppelin, the inventor of the dirigible balloon that bears his name, had succumbed after an operation. The kaiser was said to be very much affected by the intelligence.

## ABRUZZI'S NEW RECORD

Duke Climbs 24,600 Feet Up Mount Godwin Austen.

Allahabad, India, Aug. 11.—The Duke of the Abruzzi has arrived at Bandipur. He has established a new record in mountain climbing by ascending Mount Godwin Austen to a height of 24,600 feet.

## Fatally Gored by Bull.

Bethlehem, Pa., Aug. 11.—Wesley Boyer, a young civil engineer, who is spending the summer at the home of his parents at Phifer's Corner, a few miles from here, was fatally gored by a vicious bull he was driving to pasture. The animal suddenly turned on him, and before he could get away it had sunk one of its horns into his abdomen.

## Boy Nearly Smothered in Wheat.

Middletown, Del., Aug. 11.—Edgar D. Lusby, the ten-year-old son of James Lusby, near Cecilton, was almost suffocated in a bin of wheat. The child was playing in the bin, from which the wheat was running down a chute to the fan below. He was drawn into the wheat so far that he could not get out, but his cries for help were finally heard.

## Dead at Age of 111.

Binghamton, Aug. 11.—Mrs. Sarah Casterline, believed to have been the oldest person in the state, is dead at the Tioga county poorhouse, aged 111.

## SHOOTS JUROR IN REVENGE

Convict Kills Object of Hate and Himself.

## DOUBLE TRAGEDY ON STREET

Released a Few Days Ago After Serving Long Sentence, He Started Out to Square Matters—Victim Was Formerly of Phoenixville, Pa.

Middletown, N. Y., Aug. 11.—James McSorley, a former Coney Island hotel keeper, who completed a prison sentence only a few days ago, came here to square matters with Daniel E. Fenton, proprietor of the Hotel Elberton, the man he believed responsible for his conviction. Both McSorley and Fenton are dead.

McSorley met Fenton on a crowded street corner. Without even withdrawing his pistol hand from the coat pocket in which he clutched the weapon, he fired three shots, each of which took effect. Then, seeing that his old enemy was done for, he removed the pistol from his pocket and fired two bullets into his brain. Fenton was still conscious when bystanders ran up, and he was rushed to a hospital, where he died a few hours later. McSorley died in the street.

On his way to the hospital Fenton gasped to the surgeon who knelt beside him in the ambulance: "It was McSorley—I was on the jury that sent him to prison—long time ago—for a long term." Then he lost consciousness.

According to the police here, McSorley was released from prison last week, and started at once to hunt up Fenton, who had been a rival hotel keeper at Coney Island before McSorley's conviction, and who he believed was responsible for the years he was compelled to serve. He went to Coney Island and ascertained that Fenton had long since left there for Phoenixville, Pa., where he conducted a hotel for some years. McSorley bought a ticket for Phoenixville, where he arrived Monday, only to find that his man had left Phoenixville and gone to Middletown.

The ex-convict hurried to Middletown. He asked to be directed to Fenton's hotel, and went at once to the barroom of the Elberton. Learning that Fenton had gone to the post-office, McSorley walked leisurely up West Main street, asking a number of persons if they had seen Fenton. A moment later they met face to face. Fenton recognized the stranger, paled and tried to flee, but McSorley, fring from his pocket, mortally wounded him before he could turn.

## Shot Man Who Killed Brother.

New York, Aug. 11.—Ralph Gascone, proprietor of a Mulberry street cafe, who served thirty-two months in Sing Sing after his conviction for murder, was shot down and mortally wounded in front of his cafe by a man whose brother he killed four years ago. His assailant gave his name as Arvato Santaniello. After the shooting Gascone staggered into his cafe, grabbed a butcher knife and seriously wounded Santaniello.

## NO CLUE TO MISSING BOY

Lad Went to Mountains on Botanizing Trip Last Week.

Seranton, Pa., Aug. 11.—Not a single clue has as yet been found to the whereabouts of Joseph Jordan, the fifteen-year-old high school boy, who went into the West mountain botanizing last Thursday and has disappeared as if the ground swallowed him. There is no acceptance among his friends of the theory that he has run away, as he was not the kind of boy to do that sort of a thing. It is believed he fell over a cliff or into a pond and lost his life.

## 457 ARE DROWNED

Disaster Among Coral Fishers Off Kobe.

Milan, Aug. 11.—The Secolo's Tokio correspondent cables that a fleet of coral fishers was overtaken by a squall off Kobe and that 457 fishermen were drowned. War vessels have left for the scene of the disaster.

## Millionaire's Wife a Suicide.

Keystone, W. Va., Aug. 11.—Mrs. Genevieve Ramsey, aged twenty-three years, wife of K. L. Ramsey, said to be a millionaire coal operator at Williamson, W. Va., committed suicide in the parlors of the Keystone inn here by firing a bullet through her left temple. Domestic troubles was the cause.

## Statues of Washington and Lee.

Washington, Aug. 11.—Bronze statues of George Washington and Robert E. Lee, Virginia's contribution to the nation's "hall of fame," were placed in statutory hall at the capitol. Formal ceremonies attending the unveiling will take place at some time yet to be determined.

THE LEADERS

## VACATION

This is the season when everybody who can make it possible should, not only look forward to, but take a holiday of all the time one can afford to be away. A change from the routine of life—not necessarily a rest—but a change of scene and life to better fit one for future activities. To do this with joy we want to be as well dressed as possible—and to tell you how this can be done, and yet leave a goodly sum from your appropriation for the vacation, is the purpose of this Ad.

We still have a fair assortment of Cloth Tailored Suits left at

\$10.00	\$12.50	\$14.75	\$16.25
worth \$15.00	\$18.00	\$22.00	\$25.00

These Suits are made by the best tailors of Cleveland, Ohio, (the largest Suit city in the world) and even at regular prices were considered cheap, by comparison with other stores.

We still have a few  
Lingerie Dresses and Lingerie Waists  
at 1-2 Price

A few extra Waists, or another Lingerie Dress is a wonderful addition to the going away wardrobe. While a Tub Suit is the thing to travel in, or go riding in over the country, mountain or seashore. There is all of August and September for their use—while for the Lingerie waist or dress a very suitable thing always to use for evenings—They do not cost much now if we can fit you.

## Underpriced Jackets, Pongee Coats, Raincoats

Just the thing for travel

## Accessories

A bit of ribbon—An up-to-date collar or tie, belt, gloves, &c., all add to the charm and style of the wearer and the pleasures of the trip. Then too, it is necessary to fix for cool evenings on the trip. Let us suggest taking a sweater and medium weight underwear. We are ready to supply them.

## For the Men

Are you sure you are fully equipped for that vacation trip, if not, see us for

## Acorn Brand Shirts

Balbriggan and B. V. D. Underwear  
Cuffs, Collars, Ties, Belts, Hosiery, Handkerchiefs, &

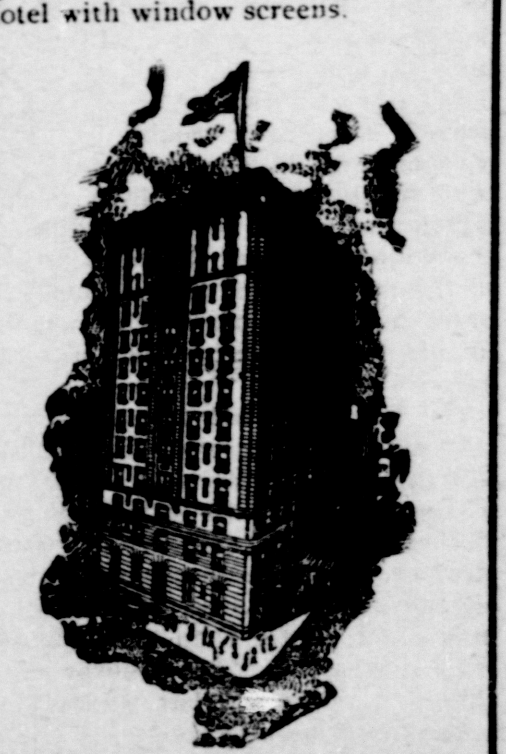

The cost of these articles, in most instances, is less than if you feel the need of them when away and make the purchases as a stranger. See us, before you go.

## Cleare Complexion Quickly

New Discovery That is Recommended  
by Beauty Specialists in Paris and  
New York.

A crusade has lately been started  
against the use of cosmetics, enamels  
and the other external applications so  
largely used by women who want to  
be beautiful, as there is nothing of this  
nature that does not in the end spoil the  
texture of the skin and actually ruin the  
complexion.

Beauty specialists in Paris started the  
idea of putting their patrons on a special  
vegetable diet, and while this gave the  
desired "baby skin", yet it took too long,  
and in their search for something that  
gave the same effect in a short time, they  
found Margo, using it in tablet form, so  
the proper quantity could be exactly  
determined and the treatment readily  
used. It has become very popular in  
Paris, London, and New York, and as  
its merit becomes better known, is  
spreading to the smaller cities and towns.  
L. M. Buehler has secured a small supply,  
and every woman who wants a fair, rosy  
complexion, free from pimples, paleness,  
and sallow spots, should try 50c. worth  
of Margo.

## Executor's Sale of Valuable Real Estate

## SALE OF MILK COWS

SATURDAY, AUGUST 14 1909.

On the above date the undersigned will  
sell at the farm occupied by A. Miller on  
Mumm-sburg road one mile North West  
of Gettysburg 16 head of cows and one  
bay mare. These cows were selected for  
dairy purposes, are of good size, and in-  
clude some heavy milkers. 3 were fresh  
during past 6 weeks, 4 are early Fall  
cows and the remainder will be fresh  
during Winter and Spring. The bay  
mare is an excellent worker wherever  
hitched except in lead. Don't miss this  
opportunity for this stock will be sold re-  
gardless of price on account of scarcity of  
of feed. Sale to commence at 12.30.

## The Fatness of Health

Samose Fills Out the Curves and  
Makes Thin People Fat.

Perfect health and good, solid beau-  
tiful flesh can only come through the  
use of Samose, the remarkable flesh  
forming food.

This makes the thin and scrawny,  
plump and robust; it mixes with the  
food so that all of the elements that  
make solid bone, firm muscle and good  
flesh are thoroughly assimilated and  
retained in the system.

Samose is not a drug or a stimulant;  
it is a scientific flesh forming food  
that restores thin people to a normal  
condition of good healthy flesh.

There are thousands of unhappy  
nervous thin people who would look  
and feel entirely different if they were  
only fat and plump. Let them use  
Samose and they will soon notice re-  
markable results.

These statements are confirmed by  
L. M. Buehler's offer to refund the  
money to any one buying and using  
Samose who does not gain in weight  
as promised. The risk is all his.  
The thin and scrawny can buy Samose at  
Druggist L. M. Buehler's drug store,  
with the knowledge that if it is not  
successful it will cost absolutely nothing.

Send postpaid on receipt of 10 cents.

Eat Ziegler's bread.

## Deafness Cannot be Cured

by local applications, as they cannot reach the  
diseased portion of the ear. There is only one  
way to cure deafness, and that is by constitu-  
tional remedies. Deafness is caused by an in-  
flamed condition of the mucous lining of the  
Eustachian Tube.  
When this tube is inflamed you have a rum-  
bling sound or imperfect hearing, and when it is  
entirely closed, Deafness is the result, and un-  
less the inflammation can be taken out and this  
tube restored to its normal condition, hearing  
will be destroyed forever; nine cases out of ten  
are caused by Catarrh, which is nothing but an  
inflamed condition of the mucous surfaces.  
We will give One Hundred Dollars for any  
case of Deafness (caused by catarrh) that can-  
not be cured by Hall's Catarrh Cure. Send for  
circulars, free.

## FRUIT JUICES VERSUS DOPE.

Humanity would be stronger and  
have a much smaller annual doctor's  
bill if it would swallow less dope—  
quinine, bromo seltzer and booze con-  
coctions disguised under pious, sooth-  
ing and high sounding names—and eat  
more nature distilled fruit juices,  
grapefruit for malaria, prunes and figs  
for constiveness, cranberries for slow  
liver, lemon juice in hot water for nau-  
sea and biliousness, with apples, or-  
anges, pears, peaches and the rest as  
aids to digestion, blood purifiers and  
for the general health.

## Mrs. Johnson Knows

She Says That Parisian Sage is the Only  
Real Hair Tonic.

Parisian Sage is the quick acting hair  
grower that can now be obtained in  
America and that is guaranteed by Peo-  
ple's Drug Store to cure dandruff, stop  
falling hair and itching scalp in two  
weeks or money back.

Mrs. Johnson says:  
"Parisian Sage is the only hair tonic  
that ever benefited my hair. I began and  
used it daily for a while, afterwards I  
used it according to directions. I am ab-  
solutely positive that it will thoroughly  
cleanse the scalp and hair, stop irritation,  
eradicate dandruff, stimulate the growth  
of the hair, prevent baldness, and make  
the hair soft and silky."—Mrs. Sue John-  
son, 229 4th St., Frankfort, Ky.

Parisian Sage is a most delicately per-  
fumed hair dressing and has not a par-  
ticle of stickiness or greasiness in it.

Women who desire beautiful and lux-  
uriant hair that will attract and fascinate  
should use Parisian Sage. Leading  
druggists everywhere sell it. People's  
Drug Store sells it in Gettysburg for 50  
cents a large bottle, and guarantees it to  
give satisfaction, or money back. The  
girl with the Auburn hair is on every  
package. Made in America by Giroux  
Mfg. Co., Buffalo.

## CREAM ON THE FARM

By EDWARD H. WEBSTER.

The dairy industry is not the main  
business of farmers, but rather a side  
issue forced upon them by adverse  
conditions or aggressive creamery  
agents. The farmer seldom gives se-  
rious attention to the careful handling  
of his cream. He has the cows and  
the separator, and the market that  
takes his cream asks but little of him  
in the way of quality. Naturally but  
little has been done to keep the prod-  
uct pure from the time the cow is  
milked. Now, however, times are  
changing rapidly in this respect. The  
creameries are requiring quality tests  
to be made of the patron's cream and  
are paying for it on that basis. This  
is going to bring the farmer face to  
face with a new proposition. He must  
learn how to care for his cream in  
such a way that he may deliver it to  
the creamery in perfect condition.

The milking is the starting point of  
most of the trouble. The milker sits  
down with a pail open at the top and  
begins to milk. Any dust, straw or  
manure that may be hanging to the  
udder is gradually dislodged and finds  
its way into the milk. Thus while the  
dairyman milks he unconsciously  
plants—he plants the seed of destruc-  
tion in the very product he is going to  
market. The destruction begins at  
once and is carried on very rapidly so  
long as the proper temperatures are  
maintained.

The remedy would naturally suggest  
itself. Stop the dirt from getting into  
the milk. This can be done easily and  
quickly. If the milker will carry with  
him a damp cloth and carefully wipe  
off the udder and the parts immedi-  
ately around it the trouble will to a  
great extent be prevented. All of the  
coarser particles of dirt will be rubbed

IN A SANITARY DAIRY.

off and the finer particles of dust  
dampened, so that they will not fall  
into the pail. This work will require  
but a few moments of extra time and  
prevent much after trouble in the way  
of sour and ill flavored cream. The  
cow should be milked in a place in  
which the air is free from dust. In  
the winter or when the cows are kept  
in the stable never feed or move hay  
or clean out the place or do anything  
to stir up dust or strong smells just  
before milking.

The cream should be separated at  
once after milking, while the milk still  
has the animal heat in it. The work  
of the day should be so arranged that  
this can be done. Do not use a cloth  
strainer. The separator will remove  
all the solid dirt that may be in the  
milk much better than it can be done  
with a strainer. There never was a  
cloth strainer used that would not in  
a few days become yellow and smell  
bad. Under the best conditions, where  
steam can be used to help in cleans-  
ing, the cloth strainer is a source of  
danger rather than a benefit. A well  
made wire strainer might be used, but  
there is no need of any strainer. Pour  
the fresh, warm milk directly into the  
supply can and send it through as  
quickly as possible.

### POSSIBILITIES IN CORN.

With Special Reference to Several Va-  
rieties of Sweet Brands.

It is not too late to consider sweet  
corn, of which there are several varie-  
ties. The illustration gives an idea  
of the high state of perfection to which  
any species of corn, sweet or other-  
wise, can attain when cultivated with  
care. The illustration shows the pos-  
sibilities of the better brands when  
properly planted and grown under good  
conditions.

A popular standard of sweet corn is  
the Early White Cob Cary. The White  
Cob has all the good qualities of its  
parent and with the added advantage  
of having a white cob and pure white  
grains. The stalks are of medium  
height, stout and sturdy, allowing a  
close planting. In good land, well fer-  
tilized, two ears may be grown to the  
stalk. It is not only the best early  
variety, producing marketable ears

WHAT CULTURE WILL DO FOR CORN.

five-five days from germination, but it  
is also the best corn to plant for the  
early fall markets.

The Country Gentleman is the best  
second early variety for the private  
family as well as for the retail trade.  
The corn is of delicious quality—con-  
sidered the sweetest in cultivation.  
Planted on rich ground and given ex-  
tra fertilizing and culture, two or three  
large ears can be grown to the stalk.  
Stowell's Evergreen is the standard  
variety both for market and for the  
private family. The ears are of large  
size, grains deep, tender and sweet,  
a vigorous grower, producing one to two  
large ears to the stalk. It requires  
fully sixty days to mature marketable  
ears.

To have a succession plant every  
twelve days. The ground for sweet  
corn should be deeply plowed, harrowed  
and rolled until fine and mellow.  
Spread well rotted, rich manure in the  
furrow, then sow 400 pounds of a  
complete fertilizer to the acre on top  
of the mixture; mix the manure and  
phosphate with the earth; drop three  
grains twenty inches apart in the row.  
Hubbard squash or crook neck pump-  
kins may be planted in every fifth  
row. Give frequent and thorough cul-  
ture. Two good workings with the  
hoe should be given. In eastern corn  
states the varieties referred to are  
planted as late as the last of July.

### Milk For Poultry.

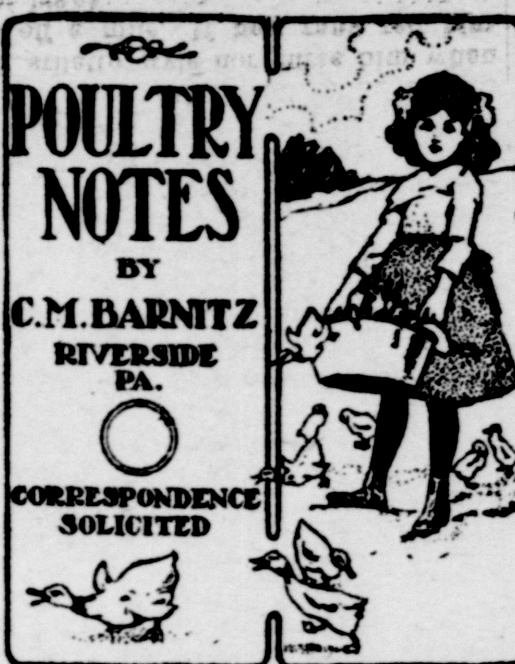

All kinds of poultry have a great  
fondness for either sweet or sour milk.  
It is a cheap food when properly fed.  
Separator milk, direct from the fac-  
tory, mixed with corn chop, makes one  
of the best foods to fatten old hens.  
For laying hens and half grown chick-  
ens it may be poured into troughs just  
as it comes from the factory. For  
young chickens and turkeys it should  
be made into curds. The milk must  
be fed with judgment, especially to  
young turkeys, as all overfeeding will  
prove fatal. A moderate feed is all  
right, but too much will cause a loss.  
Give a small feed of curd mixed with  
corn chop late in the afternoon.

### To Revive Grass.

No top dressing or fertilizer will do  
more to revive grass than nitrate of  
soda, and it should be used in combi-  
nation with materials containing phos-  
phoric acid and potash. A mixture of  
150 pounds of nitrate of soda, 150  
pounds of acid phosphate and 75  
pounds of muriate of potash is recom-  
mended. Grass, even in the old mead-  
ows, will respond very quickly to this  
treatment.

### Long Handled Tools.

Every farmer should use long han-  
dled tools instead of short ones and  
have his plow handles as far apart  
again as most of them are. The seats  
on his vehicles should be high enough  
and deep enough to enable him to sit  
up straight and not acquire a humped  
back.

### FINISHING FOWLS BY MACHINE.

Wonder if cruel Nero told those Ro-  
mans how to fatten the goose when  
they burned out the poor things' eyes,  
nailed its webbed feet to a board and  
rammed chunks of feed down its  
throat. About as bad when French-  
men fasten a chicken in a box so it

can't move, only allow head and tail  
to protrude, and stuff it there a month  
through a funnel.

Nope! In this country we don't do  
as the Romans do. We fellows don't  
follow French fool fashions.

At first fowls were fattened old  
fashioned, as some do now. Then came  
tedious hand cramming, by which  
dough balls were forced down a fowl's  
throat. Then came the funnel fashion;  
last and best, the fattening crate and  
cramming machine in 1890.

Machine finishing generally puts the  
varnish on work of fattening crate.

For about ten days fowls naturally  
eat greedily the paste of the crate  
trough.

Then, eating less than they can di-  
gest and assimilate, they are cramped  
by machine for a week or more.

The fowl is taken, its neck stretched  
straight, and it is drawn on to the  
feed tube until the tube reaches  
through gullet to crop.

By pressure of foot on lever bar a  
plunger in reservoir forces the liquid  
feed through tube and fills crop.

With an assistant one man can cram  
400 fowls an hour.

Fowls are cramped about same hour  
twice a day and are kept in semi-

darkness and perfect quiet, as these  
are necessary for perfect finish.

When finished they must be market-  
ed at once or they go back.

No water is given, but charcoal and  
grit are furnished.

Cramming Mixture.—Fifty pounds of  
ground oats (no hulls), fifty pounds of  
buckwheat, fifty pounds of cornmeal,  
three pounds of mutton tallow, five  
pounds of blood meal, one and one-half  
pounds of salt. Ingredients should be  
ground fine, be perfectly mixed and  
wet up to a cream with skim or butter-  
milk. This also makes a satisfactory  
paste for crate work.

### DON'TS.

Don't rave at the wheat speculators  
and then demand three prices for a  
cull rooster. That's old Shylock and  
the pound of flesh.

Don't criticize another man behind  
his back. If it is necessary, point out  
his mistake, but be sure you're right  
or you may go ahead and get your  
head broke.

Don't let lime accumulate in the  
water vessels nor sour feed in the  
duck drinking founts.

Don't appoint an investigating com-  
mittee to discover why the squab busi-  
ness has gone to slump. Old Ananias  
and Sapphira did it with their tricks  
and gold bricks.

Don't try to build up a thoroughbred  
flock by mating a ten dollar rooster to  
a crowd of culled colored culls. It's  
wasting crowing on the desert air.

Don't stand off and look on the poultry  
industry as a hughouse business.  
Does the industry in which you are  
engaged add 1,000,000,000 honest dol-  
lars to Uncle Sam's annual report?  
Better look it up.

Don't try your fellow fancier up the  
back stiletté style nor curse him when  
he's off a mile. If he's rank tell him  
point blank.

## WORK

We Want—Work We Need In Our Business

We do all kinds of Cabinet work and do it well, we  
refinish old goods in Wax finish or dull Vaneering and  
Inlaying work neatly done, in fact, we are prepared to  
do all kinds of Cabinet work, also sewing machine re-  
pairing.

Hauling and packing furniture a specialty.

Do not forget we have a Storage Warehouse.

The dairy herd will do better at the  
pail when pasture is short and flies are  
bad if they are stabled during the heat  
of the day and given a ration of green  
corn or hay.

Even in the dairy business misery  
loves company, this truth probably ac-  
counting for the fact that poor cows  
and poor and improvident dairymen  
are so often to be found on the same  
premises.

Pears, beans or any other legume  
plowed under not only contribute a  
considerable supply of available nitro-  
gen to the soil, but add a supply of  
humus in the shape of decayed veg-  
etable matter.

The poorer stick of a tenant a fellow  
is the oftener he has to move, and the  
poorer stick the landlord is the oftener  
he will want to move. These two  
sticks are often found near together  
and are responsible for a heap of  
mighty slovenly farming.

### BURNT SUGAR A DISINFECTANT.

The burning of sugar as a disin-  
fectant in sickrooms is a practice fol-  
lowed in many parts of Europe and  
has usually been viewed by physicians  
as an innocent superstition, neither  
beneficial nor harmful. Professor  
Tribert of the Pasteur Institute at  
Paris has recently demonstrated in  
experiments which he has been mak-  
ing that the burning of sugar develops  
a remarkably powerful antiseptic gas.  
Five grams of sugar were burned un-  
der a glass bell holding ten quarts,  
and after the vapor had cooled germs  
of typhus, tuberculosis, cholera and  
smallpox were placed in open glass  
tubes under the bell, and within half  
an hour all the microbes were found  
dead. The efficacy of burnt sugar as  
a purifier of air containing offensive  
odors is well known and is probably  
due to the antiseptic principle referred  
to. This seems to be one instance in  
which a popular superstition seems un-  
wittingly to have had a very good sci-  
entific foundation.
